

## AUTO DARKENING WELDING HELMETS

### CF-30000

- Great For TIG MIG MMA, Plasma Applications with Grinding Feature
- Fast response time provides better protection for welders
- Viewing Size 3.62"X1.63" with 2 Premium Sensors
- Cheater Lens / Magnifying Lens Compatible Design
- Step-less Sensitivity Knob Adjustable, High / Low Delay setting

### CF-60020 (RED) / CF-60000 (BLACK)

- Light Weight - 482 grams / Just over 1lb
- Solar powered/Battery back up
- Shade 5-9 / 9-13
- Grinding/cutting mode on Shade DIN 4
- Power off delay (10 minutes), 4 sensors
- Cheater lens compatible
- ADF self testing button and battery indicator

### CF-60050

- Great For Arc, Mig, Tig, Plasma Applications with Grinding Feature
- Large Clear Viewing Area with 4 Premium Sensors
- Cheater Lens / Magnifying Lens Welding Gear Compatible Design
- Step-less Delay and Sensitivity Knob Adjustable
- Shade Variable 4/5-9/9-13 Covering Most Common Welding / Plasma Cutting Processes
- Style: Carbon fiber
- Lightweight design, only 450 g
- Viewing Area: 3.86" x 3.23"
