

CUB 190 PORTABLE WELDER/GENERATOR

Output	Part Number	Range	Engine	Dimensions	Weight
Rated DC Amps 55-190 @ 27 V 30% Duty Cycle	CF-99420	55-190 DC Amps	14 HP @ 3600 RPM	H. 24.0" (605 mm) W. 20.0" (510 mm) D. 27.5" (700 mm)	Net: 220 lb (100 Kg)

The Crossfire CUB 190 assures reliable power where and when you need it. The CUB 190's small footprint and compact design requires only minimum truck bed or floor space. The CUB 190 is powered by the rugged, field proven Kohler engine noted for its easy starts and long life dependability. DC weld output is virtually ripple free, resulting in a super smooth weld transfer and outstanding final bead appearance. Enjoy superior weld performance plus enough on board auxiliary power to operate lights, power hand tools, grinders, etc. Choose the Crossfire CUB 190 for your next welder/generator and gain the edge you need to get the job done right.
